ABOUT WANTED ANALYTICS™

WANTED Analytics™ helps recruiting organizations make better decisions faster with real-time business intelligence on jobs, employers, and talent. Analytics contains features designed specifically for recruiters, bringing together for the first time years of hiring demand and talent supply data to create a true talent intelligence platform for hard-to-fill positions.

WANTED Analytics™ contains tools and insight that can help recruiters:

- » Unlock hidden reserves of candidates for hard-to-fill positions,
- » Reduce time-to-fill by streamlining the relationship with hiring managers,
- » Analyze real-time employment trends, and
- » Increase the strategic value of your department with on-demand access to company-level research that HR executives can use to gather valuable competitive intelligence on what your competition is doing.

ABOUT WANTED TECHNOLOGIES™

WANTED provides real-time business intelligence for the talent marketplace. Clients in the staffing, HR, RPO, media, and government sectors use WANTED Analytics™ to find sales leads, analyze employment trends, gather competitive intelligence, forecast economic conditions, and source hard-to-fill positions.

WANTED is also the exclusive data provider for The Conference Board's Help-Wanted OnLine Data Series™, the monthly economic indicator of Hiring Demand in the United States.

WANTED Technologies (TSX-V:WAN) was founded in 1999. The company's headquarters are in Quebec City, Canada, and it maintains a US-based subsidiary with primary offices in New York City. The company began collecting detailed Hiring Demand data in June 2005, and currently maintains a database of more than 800 million unique job listings. To sample WANTED's services or for more information about how WANTED helps organizations make better decisions and improve sales results, visit www.wantedanalytics.com.

ABOUT WANTED ANALYTICS™

WANTED Analytics™ helps recruiting organizations make better decisions faster with real-time business intelligence on jobs, employers, and talent. Analytics contains features designed specifically for recruiters, bringing together for the first time years of hiring demand and talent supply data to create a true talent intelligence platform for hard-to-fill positions.

WANTED Analytics™ contains tools and insight that can help recruiters:

- » Unlock hidden reserves of candidates for hard-to-fill positions,
- » Reduce time-to-fill by streamlining the relationship with hiring managers,
- » Analyze real-time employment trends, and
- » Increase the strategic value of your department with on-demand access to company-level research that HR executives can use to gather valuable competitive intelligence on what your competition is doing.

ABOUT WANTED TECHNOLOGIES™

WANTED provides real-time business intelligence for the talent marketplace. Clients in the staffing, HR, RPO, media, and government sectors use WANTED Analytics™ to find sales leads, analyze employment trends, gather competitive intelligence, forecast economic conditions, and source hard-to-fill positions.

WANTED is also the exclusive data provider for The Conference Board's Help-Wanted OnLine Data Series™, the monthly economic indicator of Hiring Demand in the United States.

WANTED Technologies (TSX-V:WAN) was founded in 1999. The company's headquarters are in Quebec City, Canada, and it maintains a US-based subsidiary with primary offices in New York City. The company began collecting detailed Hiring Demand data in June 2005, and currently maintains a database of more than 800 million unique job listings.
